

Clinical Alliance Services, LLC

Advanced Postgraduate Fellowship

Clinical Alliance Services, LLC offers a two-year Advanced Postgraduate Fellowship for clinicians interested in expanding their clinical training in relational psychodynamic and attachment-based psychotherapy approaches. The Fellowship trains clinicians in culturally informed, relational psychodynamic treatment approaches. Fellows will expand on their prior learning of the tenets of relational psychodynamic psychotherapy, including the use of self and relationship to facilitate change in psychotherapy. In collaboration with their supervisors and peers, Fellows will learn to actively reflect on the therapeutic process and their role in it, in service of utilizing interventions and developing clinical formulations, as well as tailoring treatment plans for their clients. Fellows will also be encouraged to critically reflect on the impact of their personal identities and experiences, and the broader systems in which these exist, on their clinical work.

Training Goals

Fellows will learn to recognize and understand the:

- influence of the unconscious on their and others' behavior;
- impact of early experience on later development;
- how the current therapeutic relationship is influenced by clients' early relationships;
- benefits and limitations of psychodynamic treatment approaches and when alternative treatment approaches, including specialty treatment or higher levels of care, may be clinically indicated; and
- experience of difference and the impact of oppression on their own lives and the lives of clients, including the ability to reflect on the internal unconscious meanings of these experiences and their impact on both the therapeutic relationship and process.

Training Opportunities & Responsibilities

Fellows are responsible for scheduling up to 26 psychotherapy sessions per week, resulting in an average of 20 to 22 billable sessions per week, with clients participating in weekly or twice weekly psychotherapy. Fellows receive two hours of weekly individual clinical supervision and 1.5 hours of group clinical supervision with experienced staff clinicians and attend a weekly Advanced Psychodynamic Theory & Practice Seminar. Fellows also have the option to attend a weekly BIPOC clinicians seminar and consultation group. Fellows are required to work five days per week providing both in-person and telehealth psychotherapy services and must be on-site in our Cambridge office two days per week.
